

**IT'S NOT JUST ABOUT YOUR WATER. IT'S ABOUT YOUR *home.***

**Once you experience iron free soft water, you'll always appreciate it.**

Soft water makes life better. Your clothes are softer and last longer. Your dishes are cleaner and brighter. Even your skin will notice the difference. And with the Proficient H<sub>2</sub>O Pro300 water softener, you'll enjoy comfort that will last for years.

**Make life more enjoyable**

- Soap rinses cleaner, for softer hair and skin
- Eliminate scale and soap scum, cutting cleaning time
- Showerheads work better
- Glassware sparkles, dishware shines

**Save money and time**

- Use less detergent in dishwasher and clothes washer
- Extend the life of appliances and fixtures
- Improve hot water efficiency, saving energy
- Cleaning products work better with less product needed

**WORKS *here.***

**AND *here.***

**AND *here.***

**The Pro300 removes the unwanted minerals that make your water hard.**

Nearly 85% of American homes have hard water, because water naturally acquires minerals as it moves underground. Your Pro300 uses premium resin beads (1) to remove these minerals and leave your water soft and clean (2). The Pro300 then uses salt (3) to refresh the resin beads so they're ready again to remove hard water minerals.

**The Pro300 adjusts to you**

- Variable reserve (4) automatically adapts to how your family uses water
- Scrolling user screen displays time of day, gallons capacity remaining and current flow rate.
- User-friendly electronics with permanent memory backup of all programmed settings ensure nothing is lost during power outages.
- Several programming options.
- Backup battery maintains the clock even during power outages.

**If your water needs more than softening, you can also count on us for:**

- Drinking Water Systems, Iron Reduction Systems
- Problem Water Solutions, such as pH balancing and taste and odor issues

**Nearly 50 years of water treatment experience built into every Proficient H<sub>2</sub>O product**

- Available only to highly trained independent plumbers and wholesalers
- Complete line of treatment options
- Proven to solve the toughest challenges facing well and city water

**Specifications**

Factory setting is low salting; 5.0 lb. per cubic foot of resin for efficient salt use and reduced chloride discharge. Factory settings are programmed for clean, iron-free water such as municipal water supplies. For water supplies with turbidity and/or iron concentrations greater than 0.5 mg/L or high hardness levels, medium or high salt settings are recommended. Consult factory for larger sizes.
